About This Game

A dumb joke game in which loot boxes are the loot. Poke fun at loot boxes while poking at loot boxes. Climb the mountain and find the loot box of unknown riches that the prophecy foretold!

The 2,018th game in the wildly popular Box Looter series.

Box Looter is my attempt at making a fun little satirical game. I am experimenting with making smaller games in a short amount of time. This is the first game in that experiment. Let me know what you think in the Steam forums!

Note: Box Looter 2018 is a one-time purchase. There are no micro-transactions in the game.

Here are just a few things people are saying about Box Looter 2018:

"Unity engine was a mistake" -Tony, on Twitter

"So it's a game of loot box opening fair enough addict and dump children with papa visa card can go there open box's to the death and leave the gaming industry alone" -Amuril, on Twitter

"Yep, that whole one hundred dollar fee has really kept the flood gates closed and only let the very best of the trash to come in." -Caffeine Rage, on Twitter "What happened to you, Steam? You used to be cool." -Sand Ripper, in PC Gamer's comments Title: Box Looter 2018 Genre: Indie Developer: Ludo Land Publisher: Ludo Land Release Date: 27 Nov, 2017

I looted pandora's lootbox... I know I shouldn't have but I did and now I have to wait for the ending..... 10V10. Let me say upfront I'm pretty good at Starcraft and even have an APM over 250, so I speak with authority when I say this game will test your micro and have your finger spasming in pain. But the pay off is all worth it. Climbing to the top of Box Looter Mountain brought tears to my eyes. Needless to say I've already pre-ordered Box Looter Forever. If you're still reading, why haven't you plunked down .99c yet?. It's a pretty quick game. The price is cheap. Not sure about the preorder, if that's a joke as well, then haha. If you want to play a quick and cheap game then this is for you. I like joke games that make fun of loot box and pre-ordering because I hate both.

Oh and one last thing...I got the last laugh by getting a refund. ;P

#FakeGame. I got to the end! Funny joke game that is a hillarious social commentary on the state of gaming. You can definetly get your fill of opening loot boxes for a small fraction of what AAA studios are charging. Just be careful opening Pandora's Box!. It only costs 99 cents. If you are reading this review just buy this game, because the meme factor alone is worth 99 cents.. it is the very best of games 10//10 would open pandora's box 7 more times. EA simulator. Stunning voice acting. 10V10 would doot more loot.. The intent is to provide players with a sense of pride and accomplishment. A game revolved around loot boxes yet no microtransactions? 0V10. Definetly helps me cope with opening loot boxes. You get more money out of them atleast unlike the spawn of satan boxes in other titles... 10V10. The best game I had the honor of playing recently!\u00a1!!1. My very best experience of modern video gaming so far !.

- An amount content. You'll be stuck here for an amount of time.

- A mechanic is present, especially once you've mastered clicking the loot boxes.

- Visuals are there. They will still be there even 7-8 years down the road.

- The story is....OK. For a Simulator that's got 100s of boxes for it that's a bit of a weakness but a sense of pride and accomplishment compensates for it.

- It runs smoothly and plays well. Haven't encountered any crashes (yet) but touch wood. I've been playing with the graphics set to nightmare mode.
